OUR COMMITMENT

Our team is dedicated to providing the **highest quality** of workmanship at a value price.

“ Dear Ronnie,

I am writing this letter to recognize the outstanding performance put forth by your firm on the recently completed project at our Paris, TX facility. This project was an extremely critical and visible project for Campbell Soup Co.; achieving schedule, budget, and performance goals were mandatory. All the key schedule milestones have been met, the project will be completed within budget, and performance goals to date are being exceeded. Your firm, as the process mechanical contractor of the project, has played a major role in the project success. As you know, the project time line was extremely aggressive, and the scope and execution plan was complex. In addition, our expectation for quality of workmanship is always high. Ronnie, your firm met the above expectations with flying colors. In summary, your firm was key to the project success and I look forward to working with your firm on future projects. ”

Pat Hearn
Program Manager,

Campbell Soup Company

FABRICATION

R.W. Cox, Inc. is proud to have a reputation built on a strong project process.

The success of this process comes from partnering early on in project formation.

Your project will benefit from:

- **Off-site** fabrication at our shop, which will minimize on-site work
- **Custom** platforms built to your specifications
- Expertise on **your facility** design, rework, demo or relocation plans at your level
